

# pipetmax<sup>®</sup>

## MAXIMISE REPRODUCIBILITY OF YOUR BIOLOGICAL SAMPLE PREP

### PIPETMAX

Increase reproducibility and the pace of your experiments with this easy-to-use, **affordable**, automated liquid handling platform.

### Upgrade To Automation For Reliable, Accurate Pipetting

Protect your important samples from procedural errors and maximise accuracy and precision with fully automated pipetting protocols and PIPETMAN technology.

### Free Yourself From Tedious Sample Prep Work

Let PIPETMAX prepare samples for you! Enjoy more freedom away from the bench and focus on what's important — your next discovery.

### Stay Flexible - For Now And For The Future

Use any reagent, any kit and adapt your pipetting protocols to meet the unique needs of your research.

### PIPETMAN Inside

With PIPETMAN inside, you can trust your pipetting to be reliable and consistent — plate to plate, lot to lot, time after time.

### Exchangeable Heads, Removable Tray

Hardware can be customised to suit your methods and the pipette heads can be calibrated like a PIPETMAN.

### No More User Variation

Free yourself from tedious pipetting jobs and free your results from inconsistencies due to pipetting errors.

### A Truly Open System: Use Any Reagent, Any Protocol

Configure and customise your run using any reagent and any protocol you want. The hardware and software are built to be customisable.

PIPETMAX	
Pipette Head Options	8 channel 1 $\mu$ L - 20 $\mu$ L, 8 channel 20 $\mu$ L - 200 $\mu$ L, Single channel 1000 $\mu$ L
Pipette Head Mounts	2 PIPETMAX pipetting heads
Bed Capacity	9 standard microplate positions
Labware Compatibility	Standard shallow- and deep-well microplates and microcentrifuge tubes
Instrument Dimensions	24.8" x 21.0" x 20.7" (with cover), 24.8" x 20.0" x 19.0" (without cover)
Operational Air Temperature	4°C - 40°C

### APPLICATION VERSATILITY

PIPETMAX stops you from being tied down by routine pipetting tasks and can run a multitude of different applications and protocols.

- qPCR
- ELISA
- Cells Based Assays
- Protein Assays
- Enzymatic Reactions
- PCR
- Kinase Assays
- NGS Library Preparation
- Custom LH
- Agencourt<sup>®</sup> AMPure<sup>®</sup> XP PCR kits
- Illumina Nextera<sup>®</sup> XT System DNA Library Preps for MiSeq<sup>®</sup>
- Promega GoTaq<sup>®</sup> Amplification Probe1 Step RT-qPCR
- Promega GoTaq<sup>®</sup> PCR Core System

# ISO 17025 & GILSON PIPETTES

## Gilson Pipette with a Calibration Certificate Issued by ISO 17025 Accredited Lab

Around the world, the accreditation of pipette testing and calibration laboratories is based on the ISO 17025 international standard. ISO 17025 accreditation enables test data to be internationally validated and accepted.

This system of international mutual recognition allows test data to be equivalent throughout the world because they are linked to the same metrological chain of international standard weight.

Hence, the measure of the uncertainties derived from equipment, technicians, pipettes and tips which indicates the error range attributable to the measured quantities allows the accredited laboratory to attest to the pipette's reliability and ensures that it is within acceptable limits after calibration.

- Gilson ISO 17025-accredited laboratory in France provides the undisputable guarantee and confidence that our Quality System and Standard Operating Procedures have been thoroughly evaluated and approved by a legitimate third party.
- Gilson offers accredited calibration for new and serviced pipettes in full compliance with the ISO 17025 & ISO 8655 requirements.
- A certificate of calibration, approved by the French organization of accreditation (COFRAC), is delivered with each pipette. The certificate is recognized by international organizations of accreditation.

The calibration certificate with the uncertainty measurement is approved by the French Organization of Accreditation (COFRAC). This certificate includes the uncertainty budget defining the uncertainties for the involved measurements.

- In an on-going effort to address the growing demands for enhanced traceability and affordable ISO 17025 solutions, Gilson has been granted accreditation by the COFRAC for a special Gilson 3 volumes x 4 measurements method in addition to being accredited for the standardized ISO 8655 3 volumes x 10 measurements method. This enables us to offer ISO 17025 calibration at an attractive price.

- The standardized ISO 8655 method (3 volumes x 10 measurements).
- The special Gilson method (3 volumes x 4 measurements).

## New Pipettes with a Calibration Certificate Issued by the Gilson ISO 17025 Accredited Lab

To order a new pipette with a calibration certificate, add a **C** at the end of the reference for a 3 x 10 measurements method (standard ISO 8655), or a **CG** for a 3 x 4 measurements (Gilson method, available in French service centre recognised by accreditation organization).

Example:

- You need a **P100** delivered with a 3 x 10 measurements: Order the following reference: **F123615C**
- You need a **P2N** delivered with a 3 x 4 measurements: Order the following reference: **F144561CG**

All mechanical, repetitive and motorized pipettes can be delivered with calibration certificate.

Please contact your nearest distributor for calibration certificate request form.

## Serviced Pipettes with a Calibration Certificate Issued by ISO 17025 Accredited Lab

Some Gilson service centers in the world are accredited (ISO 17025) for pipette calibration when using the gravimetric method (ISO 8655).

If your nearest service center is accredited, you can ask for a certificate of calibration including information about the conformity of your pipette. This certificate is recognized throughout the world and linked to the International System of Units.

If your local Gilson service center is not yet accredited, Gilson's Accredited Laboratory of Calibration, based in France, can provide you the following service offers:

ISO 8655 3 X 10 MEASUREMENTS METHOD (NO TIP CHANGE)	
Part Number	Description
PCI 001	Fixed volume Pipettes
PCI 002	Adjustable volume Pipettes
PCI 003	8 channel Pipettes
PCI 004	12 channel Pipettes

GILSON 3 X 4 MEASUREMENTS METHOD (NO TIP CHANGE)	
Part Number	Description
PGCI 001	Fixed volume Pipettes
PGCI 002	Adjustable volume Pipettes
PGCI 003	8 channel Pipettes
PGCI 004	12 channel Pipettes
